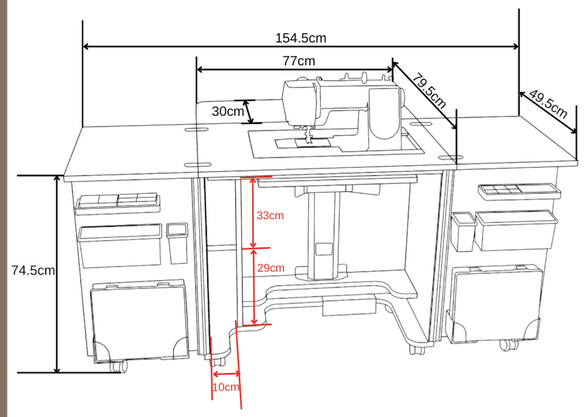
GEMINI

The small cabinet with big ideas

A surprisingly compact cabinet, only 2.5ft x 1.5ft when closed, but will fit many of the larger sewing machines available on the market today.

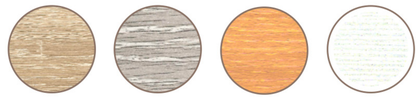
Not much bigger than the Cub Plus, but with a more central sewing position that gives the user more support on both sides as well as to the rear of the machine.

The Gemini also features improved, removable door storage and one of our flush mounted sewing machine insets (size 1992) is included, giving the user an overall more comfortable sewing experience.



Fully Closed
W 77cm (30 ¼")
D 51.5cm (20 ½" - Including drop leaf flap down)
H 76cm (30")

Available in:



Weathered Oak | American Grey Oak | Beech | White

> *Horn's service was outstanding from start to finish. I'm very happy with my Gemini. Would recommend Horn to everyone.*

Delivered fully assembled

Need a chair? See pg.38-39 for more information

Fitted with our long lifter opening (type 1992) which is capable of taking many of the newer (and older) machines on the market but not all of, more particularly, the larger domestic sewing machines. If your machine is one of these, you may need to look from the Gemini XL up. Give us a call to check for sure if your machine fits this model.

For more delivery info please see pg.43 for details.
