Innov-is 1250

For all your sewing and embroidery needs.

The Innov-is 1250 has everything to appeal to your embroidery, quilting, home furnishing and dress making needs.

With so many great features you'll enjoy the huge range of creative possibilities the Innov-is 1250 has to offer.

Wide variety of built-in embroidery patterns

Start embroidering right away with any of the 136 built-in embroidery patterns found on the Innov-is 1250. Choose from florals, animals, geometrics, seasonal designs and much more.

Patterned frame shapes

Put the finishing touch to your embroidery with an elegant frame. Choose from 10 frame shapes and 12 border styles. Combine with lettering to create an elegant monogram.

Built in Font Styles

Built-in font styles make it easy for you to personalize all your sewing and embroidery projects.

- 6 fonts
- 3 sizes

LCD touch screen

Manage all the functions with a simple touch of the easy-to-read LCD display. Includes icons and 15 languages.

On-screen editing

Powerful editing features include layout, pattern rotation in 1 degree increments, mirror imaging and scaling.

F.A.S.T. bobbin winding system

The automatic bobbin winding system makes winding bobbins quick and easy.

PE-Design

With the optional PE-DESIGN software, you can design your own unique embroidery patterns in a few easy steps. Scan drawings or photos, or use clip art images and transform them into embroidery.

Presser foot pressure adjustment

Stitch pucker-free seams on even the stretchiest knits by adjusting the pressure of the presser foot.

Enjoy making and decorating special projects

The included accessories enable sewing or quilting work to be more versatile and neat.

Instantly import patterns from Brother Memory Cards

Instantly transfer embroidery patterns from Brothers memory cards into the Innov-is 1250.

USB Port

We've even made it easy for you to import your own patterns. Just insert a USB memory stick and load your embroidery design directly to the machine.

Large embroidery area

The Innov-is 1250 has a large 180mm x 130mm embroidery area so you can create even bigger and more intricate designs.

- Extra Large 300mm x 130mm multi-position embroidery frame is also included.

Thread take-up lever window

Make sure the take-up lever is properly threaded with this convenient window.

Easy threading

With its advanced automatic needle threading system, the Innov-is 1250 makes threading the machine and the needle effortless.

Flat table

The flat table and generous workspace enables you to manoeuvre your fabric easily and securely.

- 190mm x 104mm sewing area.

Quick-set bobbin

Just drop in a full bobbin and you're ready to go.

Lower bobbin thread sensor

The Innov-is 1250 has lower thread sensors to warn you when the bobbin thread is broken or running low.

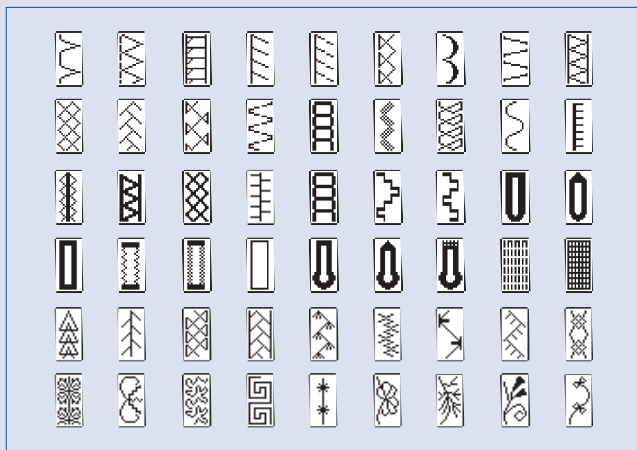

Automatic upper thread tensioning

Whether you're working with heavy denim, thin georgette, stretchy knits or bulky fleece, the Innov-is 1250 automatically adjusts the thread tension to create beautiful even stitches on any fabric.

Compatible with other manufacturers thread

The Innov-is 1250 has built in Brother thread charts and three other leading thread manufacturers. Just select your manufacturer's thread from the touch screen and the matching colour will be displayed.

Select the best stitch every time

With hundreds of built-in stitch combinations, including a range of utility stitches from blind hems to large decorative patterns, the Innov-is 1250 lets you select the right stitch for every application.

- 100's of built-in stitch combinations.
- Includes 10 styles of automatic buttonhole, 143 utility and decorative stitches and alphabet.

My Custom Stitch™

This exclusive feature allows you to create your own decorative stitches on the LCD panel. These can then be saved to memory for future use.

Combine stitches

The Innov-is 1250 allows you to combine stitches for greater variety and creativity. Combine up to 70 stitch patterns and save them to memory for future use.

Speed control customised for zigzag width (in sewing mode)

- Slide control adjusts the sewing speed from slow to fast.
- Can be programmed to alter stitch width.

Handy Central Controls

For ease of use, all operating buttons are on one convenient panel. Buttons include automatic thread trimmer, reverse/reinforcement button, needle position up or down and start/stop.

Knee lift (In Sewing mode)

Free up your hands by using your knee to lift the presser foot.

Side way feeding

Side way feeding is very helpful to attach appliques to fabric that cannot be moved around, such as cylindrical pieces. Straight stitches and zigzag stitches that sew to either the left or right are available.

Presser foot levelling button

Keeps the presser foot level for smooth, consistent stitching over changing fabric thicknesses, such as the start of a seam or crossing seams.

What's in the box?

Optional accessories

Embroidery threads
Large collection of high quality embroidery threads

Embroidery card library
Hundreds of fantastic patterns to choose from!

Wide table
for easier handling of fabrics when sewing or working with quilting or large projects.

Circular attachment
Create precise circles with a radius ranging from 30mm to 130mm. A great tool for creating circles with straight stitching, zigzag, embellishing and decorative stitches.
