

Innov-is NV2600

Fast, accurate sewing,
quilting and embroidery.

- Colour LCD touch screen
- 160mm x 260mm embroidery area
- 138 built-in embroidery patterns
- Fully automatic thread tension
- Sideways feed
- Pivot function
- ICAPS

Real creativity made easy

Put yourself in control of your sewing, quilting and embroidery. The Innov-is NV2600 has some big features for beautiful results.

The Innov-is NV2600, with its large-area embroidery and impressive sewing features, gives you both creativity and control. The pivot system allows you to turn items ready to sew in another direction – great for quilters. And the ICAPS system detects fabric thickness and automatically adjusts – for smooth, even stitching.

Key features

- Manage all the functions on the full-colour touch screen display and the touch sensor keypad.
- My Custom Stitch – design your own stitch patterns or edit and change the built-in template designs and save for future use.
- Adjust stitch length, width and density settings and save to memory.
- Preview embroidery designs in full-colour and zoom in to see intricate details of each design.
- Powerful editing features include pattern layout, rotation, mirror imaging, combining patterns, re-sizing and more.
- Built-in help function gives clear instructions on basic machine operations.

Features and functions

Large embroidery area

Large 160mm x 260mm embroidery area gives you the space for large, intricate designs.

SFDS – Square Feed Drive System

The enhanced Square Feed Drive System (SFDS) provides strong, smooth feed for optimum stitch quality.

Built-in embroidery designs

138 built-in embroidery designs including floral, seasonal, animals and much more.

ICAPS

ICAPS fabric sensor system continuously detects fabric thickness while sewing and automatically adjusts pressure to ensure even stitch quality over different fabric thicknesses.

Frame shapes

10 frame shapes and 14 border styles to allow those extra finishing touches to your embroidery.

Embroidery design created with PE-Design

Slide speed

Slide speed control adjusts speed from slow to fast. This can also be set to alter stitch width whilst sewing.

11 built-in embroidery and 5 sewing fonts

Add a personal touch to your projects with a wide variety of built-in sewing and embroidery fonts. Ideal for monograms, names, sentiments, etc.

Automatic needle threader

Simply follow the thread guide, lower the lever and the needle is threaded for you.

Built-in stitches

232 built-in stitches including 10 styles of one-step buttonhole.

Quick-set drop-in bobbin

Drop in a full bobbin and you are ready to sew.

Hundreds of decorative and utility stitches all built-in

232 built-in stitches including:

- 10 automatic one-step buttonhole styles
- 89 utility stitches
- 133 decorative stitches

LED lighting

Extra-bright LED lighting to illuminate your work area with a clean, natural light.

Knee lift

Free up your hands using the knee lift to raise/lower the presser foot. Ideal for large projects such as quilts.

Side feed

Side feed for multi-directional sewing in four directions with straight and zigzag stitches. Sews extra-large decorative stitches up to 40mm wide.

Auto tension

Automatically adjusts thread tension to best suit the fabric being sewn.

Thread sensors

The Innov-is NV2600 has upper and lower thread sensors that warn when thread is broken or has run out.

850 stitches per minute
speed for fast and
accurate sewing
and embroidery.

Optional extras

Multi-function foot controller

Multi-function foot pedal with heel kick. Heel-kick function can be set out of following four functions, on the machine's setting screen.

Choose from:

- Thread cutter
- Sewing one stitch
- Reverse stitch
- Needle up/down

Wide table

Expand the sewing area with this extra large extension table. Ideal for large quilting and sewing projects. The table includes a measurement guide and storage area for your knee lift.

Circular sewing attachment

With the measured circular attachment, you can create arcs, concentric circles and more. Use the braiding and cording feet to add those all-important finishing touches, like decorative trims and threads.

Free-motion grip

Enjoy the freedom of free-motion embroidery. Grip the fabric securely while moving it easily under the needle.

Ruffler foot

In lightweight fabrics, easily create ruffling or pleats with evenly spaced tucks and gathers. Adjusting the tuck intervals is simplicity itself.

Embroidery threads

Large collection of high-quality embroidery threads.

LED pointer embroidery foot

The LED pointer clearly shows where the needle will drop and is ideal for perfect placement of embroidery patterns.

Available in 2015

PE-Design 10 software and PE-Design Plus

Brother's range of embroidery design software offers features to suit all, from beginner to advanced users.

Optional embroidery frames

The Innov-is NV2600 is compatible with a wide range of optional frames:

- BF2 border frame 100mm x 180mm
- SEF150 quilting frame 150mm x 150mm
- EF75 embroidery frame 20mm x 60mm
- EF74 embroidery frame 100mm x 100mm

2-pin spool stand

Detachable 2-pin spool stand for large thread cones. Perfect for quick thread changes or twin-needle sewing.
